

B-Dry System of New England Announces New Ownership and Expanded Service Area

Billerica, MA – September 2025 – B-Dry System of New England is proud to announce new ownership and a renewed commitment to serving homeowners across Massachusetts and southern New Hampshire. Formerly known as B-Dry System of Middlesex/Essex, the company will continue operating from its Billerica, MA office under its new name, **B-Dry System of New England**, reflecting both its expanded reach and dedication to excellence.

For more than 40 years, B-Dry has built a trusted reputation for quality basement waterproofing solutions, sump pump installations, and foundation drainage systems. With over 40,000 satisfied customers and an **A+ rating from the Better Business Bureau**, B-Dry remains one of the most respected names in basement waterproofing.

“B-Dry has been a household name in this area for decades,” said **Adam Bonnette**, Owner of B-Dry System of New England. “Under new ownership, we’re continuing that same tradition of quality, honesty, and reliable service that homeowners have counted on to keep their basements dry and their foundations protected.”

B-Dry’s proven waterproofing systems and professional installation teams have helped protect thousands of homes from water intrusion, mold, and costly structural damage. With the new ownership, B-Dry System of New England will continue offering the same trusted products and service—now with an even greater focus on customer experience and long-term protection.
